what will you

Chapter 1 by Story Wars

Answer the first question and then make up another for the next person

You are at the veterinarian with your rat. You see a mad dog. It is going to eat a little girls pet bunny. What will you do?

Chapter 2 by The Coffee Freak

Pick up the bunny, hand it to the little girl, drag the dog by the collar, give it back to its owner and warn them both to be more careful.

You are trapped in a room that is slowly filling with water. There is only a mirror and a plank of wood with you in the room with you. What will you do?

Chapter 3 by The Harlequeen

I will sit on the plank and when the water rises to the top of the room, I will sink to the floor and smile in the mirror as I suck water into my lungs. I will drown happily.

First of all, since coffee is a diuretic, I hopefully will go the restroom enough times to get some of it out of my bloodstream and kidneys. Secondly, since I'm a *danger* to others, I will isolate myself so that no harm will come to others (I can't guarantee if harm will come to myself, however).

You're a nurse in the Emergency Room. Two of your best friends come in with the following injuries:

Missy with a puncture wound to the femoral artery (groin)

Rebecca with a puncture wound to the heart

Both are **fatal** wounds, and you are the only nurse in the ER. Who will you save and **WHAT WILL YOU DO?**

Chapter 5 by The Harlequeen

Call for backup and start bandaging Rebecca because a stab wound to the heart sounds a lot worse, and I have no medical training.

Great draft by the way, Kathy. ;)

Your brother and sister both desperately need a kidney. You are match for both of them. Who do you give your kidney to, brother or sister?

Chapter 6 by SaintSayaka

I donate one, one of my parents/cousins/literally anyone in my family donates one? Doesn't seem too difficult.

You have the option between never eating your favorite food again or eating your favorite food *as your only method of sustenance* for the rest of your life. WWYD?

Would you rather have the power of life and death over someone or would you have the power of healing? WWYD?

Chapter 8 by The Harlequeen

I think that the power of healing would be more useful to the modern world, and plus it just sounds fun :)

Would you rather: A) have to tell every single one of your secrets to everyone you know, or B) know dangerous secrets about people that could potentially cause harm if not brought to light and be completely unable to tell them.
